THE GOAL OF THE PROGRAM

To give the DMs the skills, information and tools they need to successfully lead their territory. For most DMs, this will be the only training they have ever received specifically designed for their role. In a fast-changing retail world, it's the DM who sets the tone, provides the direction and skill for their teams. This program shows them how.

ABOUT YOUR PROGRAM FACILITATORS

This program is led by two of the best-known retail trainers; Kevin Graff and Linda Montalbano. They have developed and delivered DM specific training for dozens of retail chains. They know what it takes to lead a territory, and how to get DMs to the next level of performance.

THOUSANDS OF STORE MANAGERS TRAINED

We've been working with retailers since 1988. So, we know a thing or two about what it takes to build up the skills and confidence in Retail District Managers.

But, your Managers won't learn just from us. They'll be working side by side with dozens of other District and Territory Managers, sharing ideas and insights.

This is the training your District Managers need.

Relevant.

Impactful.

Proven.

THE 'GENIUS' BEHIND THE APPROACH

In our classroom program, you come, you learn and leave. It's a pretty amazing event, but what happens after the workshop is for the most part, unknown.

Our Mini-MBA follows this comprehensive approach:

01

FIRST: FLIP IT!

The first thing done for every module is for the participants to learn some of the key content through watching videos, reviewing papers and more. They build a base of understanding even before the Live virtual event they'll attend.

SECOND: CLARIFY AND EXPAND!

Next participants attend a live virtual event where the content is both clarified and expanded. They have a chance to ask questions to ensure they fully understand the module.

02

03

THIRD: APPLY IT!

Now comes the real learning. Each week participants are given tasks to complete in their territories that require them to actually apply what they've learned!

FOURTH: REVIEW AND FEEDBACK!

Finally, participants will meet with their cohort of 10 other DMs to report back on what they've done, and at the same time, learn from everyone else in their group.

JUST A FEW MORE THINGS THAT MAKE THIS WORKSHOP OUTSTANDING

GUARANTEED LEARNING

No one gets to just sit there and listen. The program is designed to have the participants apply what they've learned each week in their stores. Effective learning through putting new skills, tools and systems in place right away.

ACCOUNTABILITY FOR ACTION

Each week participants meet with a peer group and have to share what they've implemented and learned. This not only drives accountability, it proves to them that they know what their doing.

PEER LEARNING

Participants will be assigned to a peer group from within the program, and will meet virtually with them once a week to share learnings, outcomes and challenges. This peer learning component elevates the thinking and experience for all participants.

THEIR OWN LEARNING PORTAL

Each participant gets their own learning portal, where they will find all the content they need, and upload their assignments.

Donna Blackmore

This course proved to be an invaluable resource for me as a District Manager. Since attending the course, I have been able to implement these tools within my district, and I have already seen significant improvements in various areas. I believe this course will help me create, and implement, more strategic plans for success that are tailored to the specific needs of each store team and strengthen opportunity areas.
